

As I travel frequently in my business, my dependence on XM Satellite Radio for keeping up with traffic, weather and the world is great. Consistently reliable contact with the world around me is vital in my travel. It is my choice to pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
